

## Agarose

Cat. No. GS201

**Storage:** at room temperature for two years

**Description**

High purity agarose which is free of DNase, RNase, and protease. Staining with ethidium bromide or GelStain provides low background, strong electrophoretic separation performance, and clear bands. Agarose is suitable for electrophoresis of various DNA and RNA.

Agarose gel concentration	Optimal Resolution Range for Linear DNA (bp)
0.5%	1,000 ~ 30,000
0.7%	800 ~ 12,000
1.0%	500 ~ 10,000
1.2%	400 ~ 7,000
1.5%	200 ~ 3,000
2.0%	50 ~ 2,000

FOR RESEARCH USE ONLY
