

Certificate of Analysis

PRODUCT: EasyPure® PCR Purification Kit

CAT. NO.

EP101

AMOUNT

2 boxes

LOT NUMBER

Q10222

SHELF LIFE

One year

STORAGE CONDITIONS

at room temperature (15-25°C) in a dry place
for one year

SHIPPING CONDITIONS

at room temperature

DESCRIPTION

EasyPure® PCR Purification Kit uses a silica gel membrane spin column to specifically adsorb DNA, which can be used for PCR products, purification of enzyme digestion products, and can effectively remove impurities such as proteins, organic compounds, inorganic salt ions, and primers.

- Purification of fragments ranging from 100 bp to 10 kb.
- Fast purification in only 5 minutes.

Certificate of Analysis

QUALITY CONTROL DATA

Assay	Standard	Result
Appearance	The liquid of each component should be clear without sediment or floc, and the color should not be significantly different from the control batch.	Meets standards
PCR product purification	1. The target fragment can be effectively purified;	Meets standards
	2. The purification effect of this batch of products is consistent or similar to that of the control batch.	Meets standards

Notice to Purchaser
